TOYS FOR TOTS barrels will once again be overflowing with happiness for the underprivileged children of the Bay Area. Captain Douglas V. Stowell, U.S. Marine Corps, accepts toys from W. R. Evans, San Francisco's district sales manager of Shell Oil Company, and Buss Wilson, dealer of the Shell Oil Station at Eastmoor and Sullivan avenues in Daly City as Shell Stations kick off the annual Toys for Tots drive. The Shell Stations in the Bay Area will be accepting toys from November 26 through December 19.

School District Not Liable In Drowning

Unless the case is brought to suit, the Jefferson High School District will not be held liable in connection with the recent death of young John P. Foley.

The Foley boy, aged 6, was drowned November 3, while playing in a storm sewer on the Oceana High School site in Sharp Park.

Edward D. Morgan, District Superintendent, indicates that in all probability a settlement will be made between the boy's parents, Mr. and Mrs. Thomas Foley, and the Edward Keeble Construction Company, grading contractors at the new school site. It was brought out in a letter to Morgan from Adrian W. Rose, San Francisco attorney representing the Foleys, that the little boy's death was caused by the negligence of the school district and its agents 'in leaving open in a dangerous fashion a large drain.'

"However," Morgan points out, "it is members of the contracting firm, not ourselves, who are working on the site and who are therefore responsible for any mishap which might occur there. This matter should be handled through their insurance carrier, not ours."

Morgan added that if the case goes to court—that is, if a suit is filed—then not only the School District and contractor, but the architect and other interested parties might become involved. (See Open Letter to Parents, page 3.)

Council Delays Freeway Pact, ...Modification?

Builder Chris McKeon's attempt to have the state modify the east-west freeway lateral apparently is being considered by highway division officials in Sacramento.

At Monday's city council meeting, action on finalizing the entire Daly City freeway routings again was postponed. The council learned from George McKeon that the state may be willing to shift the freeway lateral south of the St. Francis boulevard-Skyline junction —out of Daly City's limits.

The council has left the modification decision entirely up to the state. They earlier told McKeon they would strongly oppose any attempt to re-open the entire freeway discussion which could adversely affect the city-preferred Junipero Serra route.

It is possible the state will make the McKeon-requested modification while not handicapping the already agreed on Junipero Serra route.

By its next regular meeting the council may be able to pass resolutions on the major portions of the Junipero Serra route, then finalize the entire agreement with the state when the modification is worked out.

McKeon has asked the state to shift the east-west lateral about one half mile south of Clarinada avenue in St. Francis Heights and south of the Christopher Columbus School site. He contends that this routing would be cheaper for the state, more direct, and would traverse undeveloped land that is out of Daly City. McKeon also would be able to construct about 250 more homes in this southerly section of his subdivision east of Skyline.

In another major action Monday, the council unanimously endorsed the Bay Area Rapid Transit District's August 11 report on its recommended route for the Peninsula —along the existing Southern Pacific tracks east of Junipero Serra. In its resolution the council clearly expressed its opposition to any suggested routing of the rapid transit line in the Bayshore-Brisbane area, a route that would completely isolate local residents from the system.

"The heaviest usage of rapid transit in the north county," said Mayor Frank Pacelli, "would be on the Daly City side where population is more concentrated."

YOUNG MOTHER BETTER AFTER SUICIDE TRY

A young woman, reportedly despondent over the death of her 27-day-old child, failed in an apparent attempt to commit suicide Friday.

Mrs. Patricia Scott, 21, was found by a neighbor and a police officer, sprawled on the living room floor of her apartment at 310 Park Plaza, Westlake. Investigation revealed she had been drinking heavily and had taken at least one nembutol tablet.

The neighbor, Ben W. Scott, no relation, of 35 Northgate, had received a call from Mrs. Scott's husband, Wayne, expressing concern over her depressed state, and asking that he, Ben, check up on her. Unable to enter the apartment, Ben called Daly City Police for assistance. Scott and a police officer found the girl on the floor, her unconscious form draped over the telephone. An ambulance was called and Mrs. Scott taken to the Junipero Serra Hospital. Wayne Scott was called to the hospital from his place of work. He explained that their infant child had recently died, and Mrs. Scott's resulting grief may have prompted her action.

OFF-STREET PARKING AMONG OBJECTIVES

City Asks Merchants, Property-owners To Help On Main Strip

There was a good meeting of the minds on the need for Mission street commercial area rehabilitation Monday noon as city councilmen broke bread with invited representatives who have a stake in Daly City's main artery.

Mayor Frank Pacelli and Chamber of Commerce President Frank Martorana called for unity of purpose in the now-rolling drive to make Mission a better place to shop and a bigger revenue producer.

Twenty-six officials and leading merchants heard the mayor and Martorana stress cooperation for investigating desired improvements, means of financing them, and realistic objectives that can be attained to the advantage of thes merchant and consumers alike.

Druggist Elton McGraw and blinds and shades dealer Ray Charette both cited the general sentiment of merchants that the city hasn't done much about off-street parking over the years.

The mayor conceded this would be a priority project but "this is just one phase of what we have in mind."

"We feel Mission street can realize tremendous gains if you property owners and the businessmen work with us on parking and establishment of a better looking district. This will require cooperation and support by many — not just a few," stressed the mayor.

Charette pinpointed the "letdown" felt by many Mission merchants over the lack of follow-through by the city on parking in years past.

"If you'll remember," Charette emphasized, " the Chamber of Commerce was first organized with off-street parking as one of its foremost objectives. We merchants feel we have been slightly neglected... parking meter funds, once earmarked for off-street parking lot purchases, were diverted into other channels. Most of the city's money has gone into the western (Westlake) area of

Man, 61, Takes Life By Poison

A 61-year-old Daly City man died of strychnine poisoning Tuesday evening, despite attempts by the Fire Department's Resuscitator Squad to revive him.

He was Corrado Arrighi, of 38-A Beta street.

Mrs. Corrado's son, Enrico Arrighi, also of Daly City, said the victim had seemed depressed earlier that day, apparently over the results of a recent cancer operation. When the young Arrighi returned at 5:25 p.m. he found his father lying on the living room couch. An empty one-ounce strychnine bottle lay on the dining room table. Arrighi called Daly City Police and the Fire Department. Firemen administered oxygen for twenty minutes without success.

The victim was rushed to Junipero Serra Hospital and pronounced dead on arrival at 6 p.m. by Dr. Lawler Drees. Dr. Drees confirmed death by suicide.

Enrico Arrighi reports that his father had seemed in good spirits for some time after the operation, and during periodical visits to his doctor. It was only on the morning of his death that he appeared despondent.

An autopsy will be performed at Community Hospital.

PATROLMAN STEVE STEEN

Suspended Cop To Appeal In Closed Session

Suspended Daly City Police Officer Steve Steen will appear before the Personnel Board this Friday at 7:30 p.m. in a special hearing requested by the 33-year-old Westlake resident. The closed session will be held in the Council Chamber, 75 Wellington avenue.

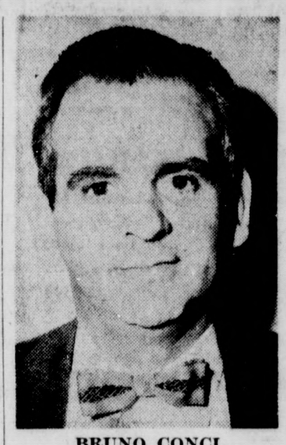
Steen will ask the four-member board to reverse the decision of Police Chief Roland Petrocchi.

Petrocchi on November 1 ordered Steen suspended for 30 days, ending this Thursday, for allowing his wife to stay in his patrol vehicle when Steen chased a reckless driver in an episode that ended in total damages to the squad car. The chief said Steen clearly violated department rules by having an unauthorized passenger in the vehicle.

Steen maintains he did have the permission of two superiors on duty the night of the mishap to let his wife ride home with him in the patrol car for midnight lunch. The officer also insists that his "judgment"—deciding to pursue the reckless auto—was logical and the proper thing since another patrol vehicle in the same area, Steen says, "signed off" and "I was the only law enforcement officer in the immediate area who could have stopped the offender."

Petrocchi today again repeated his statement of four weeks ago that Steen's attempt to justify the violation "isn't likely to help his status in the department."

"I suspended him because of a rule violation—not because he embarrassed the department and wrecked a patrol car," said Petrocchi. "And his statement that he had expressed permission to allow his wife to ride in the police vehicle is not correct. No one gave him such permission. Steen's own private auto was parked behind City Hall at the time and his wife could have gone home in it."



BRUNO CONCI
... testimony?

Steen's argument, he says, is based on "principle . . . the fact I had permission for the transportation and also that my judgement was correct . . . the reckless driver could have killed someone if he wasn't pursued and subsequently halted."

Steen, who holds a college degree and has studied law four years, has retained Gregory Stout, prominent attorney who instructs criminology courses at City College of San Francisco, to represent him in Friday's hearing "and any subsequent appeal actions which may eventuate."

City Attorney Paul Hupf will serve as legal counsel for Chief Petrocchi who also will have on hand for testimony Capt. Roy Beecher, Lt. Bruno Conci and Sgt. David Hansen.

Ice Box Burglar Gets $425

A Daly City butcher who left $425.66 'on ice' overnight may have to find a new hiding place for his cash receipts.

Dave Boicelli, 54, owner of Dave's Meat Market at 30 San Pedro road, went down to his shop Thanksgiving morning to pick up some butter. When he arrived at 11:30 he found the front door was open—as well as a drawer of the cash register. A quick check revealed that $10 in coin had been removed from the drawer. Currency in the closed drawers had not been taken.

Boicelli then proceeded to the market's walk-in refrigerator, used as a safe for storage of his daily receipts. He found his two banks sacks, well-chilled and intact on their special ice-tray rack—but emptied of $425.66 in cash. All that remained were some customers' checks.

Boicelli called Daly City police to the scene. It was soon determined that a burglar had entered the building through a narrow attic vent, after climbing a 10-foot ladder lying in the alley-way between the market and an adjacent building. Inside, an attic floor vent, temporarily covered with cardboard, gave him access to the first floor of the building.

In the opinion of patrolman John van Otten, who came to investigate, the burglary was performed between 6:15 p.m. November 23 and 11:20 a.m. November 24, by 'a person who knows the premises well.' He and Boicelli are in accord that the money was well-hidden.

What Can The Cops Do When They Can't Locate The Trouble?

It's 1:30 p.m. Wednesday, November 23.

"Is this police headquarters?"

"Yes."

"There's a big brown lion across the street and two boys are throwing rocks at him and trying to sic him on me."

"Where are you calling from?"

"My name is Billy Walker and I live at 2201. . . ."

"You say there's a lion across the street?"

"Yes, and I just don't know what to do."

"Where do you live?"

"201 . . ."

"Well, we can't help you unless you give us the address."

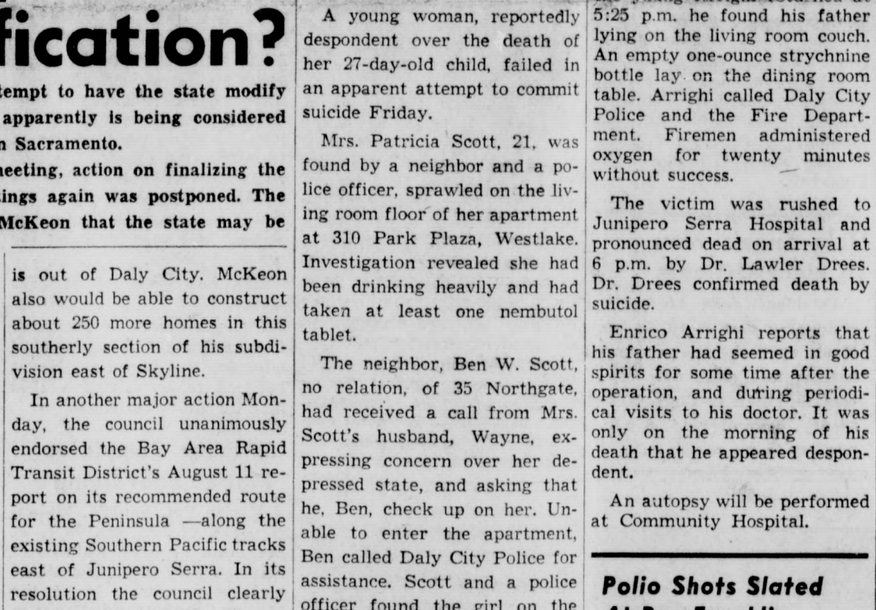
"My folks aren't here . . . they're down the street."

"Well, you just wait there, sonny—lock your door and wait for your parents."

"Allright."

Daly City Police Clerk Muriel Mermon then went back to her duties.

Apparently the mumbling youngster had no further trouble with the big animal. A check of all patroling officers failed to produce any roars—other than human-like chuckles.



AFTER two years of inactivity, Jefferson School PTA has been revived. Dr. Vinton Stratton, assistant superintendent in charge of instruction, installed the officers and discussed working with the differences that exist among people and children. Shown above (left to right) are Mrs. Flora Martinelli, historian; Mrs. Margaret Condon, treasurer; Mrs. Elsie Boyd, president; Mrs. Maryjane Steele, auditor; and David Willey, principal and vice president in charge of programs. Apartment Raided, Police Jail Three Dope Suspects Here

A burglary suspect under treatment for a liver ailment escaped from Community Hospital Tuesday night, and while searching for him police stumbled upon a Daly City narcotics party.

This twist of fate—ill fate for the suspects—came about when San Francisco and Daly City police officers arrived at 57-A Gambetta street yesterday at 1:30 a.m., hoping to find Richard Lyon, 24, the escapee. Lyon was believed to have taken refuge with friends there.

After knocking on the door and identifying themselves, the officers heard a frantic scurrying from within. Daly City Sergeant Jerry Galindo opened an adjacent door leading into an alley and sighted a figure running toward the end of the building. Galindo took off in pursuit and apprehended the man, subsequently identified as James D. Hamilton, 21, a sheet-metal worker.

In the meantime, the other officers had made their way into the house. There they found Joseph S. W. Oliver, 21, a clerk, and Benjamin A. Wilson, 19, unemployed. Other members

CITY ASKS MERCHANTS TO HELP

(Continued from Page 1)

Daly City, and naturally we feel we have a legitimate gripe."

Martorana asserted the Chamber's thinking.

"There are a lot of problems concerning Mission that need immediate attention. The traffic congestion at the top of the hill will get worse. We've got to do something to relieve this situation. Also, I feel some effort must be made to get through bus service on Mission all the way south to Colma."

The Chamber president pinpointed the prime goals of his organization — off-street parking, transportation, elimination of old rundown establishments, and attempts to secure new state and federal buildings to bring additional revenue here.

"We've got to subordinate our individual differences," urged Martorana. "That's what has held us back in the past. We've heard nothing but one side of town being against the other. This certainly isn't the path to progress for a community this size. Daly City is out of the 'hick' town category. We're bumping into the big leagues with 44,000 people."

"Mission street is the historic street of Daly City . . . there's no reason we can't work for a ripple of economy from the top to the bottom of this street," concluded Martorana.

Financing Mission improvements could be achieved by five separate methods, explained planning consultant Carl Hanauer of a San Francisco agency. He was invited by City Manager Edward Frank to brief the gathering.

Pacelli cited city of San Bruno's effective off-street parking program—six separate lots behind stores on the main street.

"Each merchant in San Bruno is assessed to help finance these lots which revert to the city after 20 years. San Bruno had to condemn only one piece of property and their program is effective. That town needs no parking meters.

Real estate man Ray Lagomarsino pointed out that Mission street was different than San Bruno and Millbrae "where land was available for parking lots."

"We have a more crowded area and acquisition of lots behind Mission will involve some problems."

Spotlite Market owner George Glass felt redevelopment "financing by eastern firms" might be the best solution for Mission. Realtor Paul Selmi, former city treasurer, suggested having a syndicate handle the project.

But the mayor pointed out, "there's too much red tape when you turn the job over to an outside firm or depend on government financing."

The mayor agreed with Charette on the need for knowing "how much we want done before we decide on how we are going to finance it."

The city manager cautioned: "We can't approach this like a bull in a China shop. It will take careful planning and help from experts. The main thing is for us to be practical and develop a common sense plan. Outside firms are useful at times, but if we already have properly qualified personnel, then all the better. Mission street's master plan, say the next 10 to 20 years, should be our consideration. We're concerned with parking, transportation, the freeway and rapid transit — all within this one area. Our planning now, therefore, must take all these into account."

Answering Charette's statement about the shift of funds that could have been utilized for off-street parking, Frank explained, "in my opinion, the council has put these funds to good use."

"During the last three years the city has spent thousands of dollars for needed capital improvements, so I don't think it is fair to suggest our funds have been used haphazardly. Off-street parking, of course, is a big problem, but it can be worked out. If you look at our records, you'll learn that parking meter revenue doesn't bring us very much—hardly enough to finance the kind of off-street parking we need. Our budget is tight and for this Mission rehabilitation we'll have to work on an effective means of financing."

Like planning consultant Hanauer, the city manager asserted that Daly City's parking problem is relatively minor today but will be major in the near future. Frank explained that parking meters soon will be a thing of the past . . . "the trend now is for large shopping centers, accompanied by large areas for parking.

Hanauer listed the methods of financing off-street parking —a self-supporting revenue bond issue (meters on the designated lots, an assessment district (similar to San Bruno and Millbrae plans), general obligation bonds (authorized by a vote of the people—"the most complicated method"), a municipal lease arrangement, and complete city financing.

Pacelli said the next step would be to appoint committees to outline objectives, present detailed maps, project the Mission district's economic potential, and arrive at cost estimates.

"We can make Mission street the most important segment of Daly City—if we get the kind of cooperation we need," summarized the mayor.

Tavern owner George Kirchhubel proposed another mass meeting after the holidays. Mission property owners who failed to attend this week's session will be urged once more to participate, Pacelli said.

Others attending the meeting Monday were: Frank Curry, Star Water Heaters; Leslie Ginsberg and F. MacDonald, Masonic Temple; Frank Duffy, Duffy's Tavern; A. W. Neville, Neville Ford; William Shannon, Shannon Hardware; Charles Behrend, jeweler; Lou Pisani, manager of Bank of America; Charles Maestri, 6386 Mission; Postmaster Vincent Murphy, and City Engineer Bill Chapman.

Thanksgiving Thief Raids Refrigerator

A thirsty burglar, apparently more interested in a liquid lunch than the traditional turkey, entered the basement of a Westlake home Thanksgiving Day and departed with a case of beer.

Mrs. Kathryn R. Cain, 44, of 72 Lakemont drive, left home late Thursday afternoon for dinner, accompanied by her son Martin, 15. When they returned at 8:30 they found that the case of beer—in '6-paks'—had been taken from the basement refrigerator. In reporting the theft to Daly City police, Mrs. Cain said that the burglar probably entered through an unlocked basement window.

She added that her son would inquire among several 'young companions' who frequented the basement to determine whether any one of them was responsible.

of the party are believed to have fled.

While questioning the men about Lyon, the officers noticed a hypodermic needle lying on the floor. An immediate search of the apartment turned up another needle—hidden in an empty cigarette pack—and an eye-dropper, stained teaspoon, cotton swab and plastic cylinder, all stashed under the sofa. Under the bathtub was a shoe box filled with bottles, some labeled 'codein.'

The men were brought to the police station for searching and further questioning. It was then noticed that there were puncture marks on the forearms of Hamilton and Oliver. The suspects identified these as 'scratches.' Each of the men, it was soon learned, have police records, one case involving the use of narcotics.

Bail has been set at $525 apiece.

Police are still in search of Richard Lyon, also suspected of addiction to narcotics. He is believed to be driving a 1959 blue Renault 'Dauphine.'

Suspended Cop

charge of Steen's shift the evening of the incident.

Steen and his wife Tanya, 30, both suffered severe bruises when the police car rammed into another auto which had swerved to avoid a crash with the spinning reckless driver's '58 sedan.

The offender who caused the episode was a sailor who lives in Westlake. He was apprehened 24 hours after the police car smashup by Daly City officers who checked out his license plate number. The young serviceman pled guilty in court and was fined $100 by Judge Charles Becker on the charge of reckless driving.

Petrocchi has said he "sympathizes with Steen and we don't want to hurt him nor his career, but rules have to be observed."

Steen, on the other hand, said the loss of his monthly salary, $550, because of the suspension, was serious "as far as my bills are concerned and I don't think I should be penalized for doing what I thought was right."

Asked what he would have done in similar circumstances, Petrocchi replied that he would have let his wife out of the car, then pursued the reckless vehicle.

Steen's comment that "many police department personnel use their patrol cars for personal trips" was counterattacked by the chief.

Said Petrocchi: "If anyone has allowed unauthorized passengers to ride in our police vehicles, I haven't been aware of it. This is clearly against our rules and you can be sure any violations of this regulation will bring immediate action."

Personnel commissioners John Drye, Joseph Schultz, Robert Young and Albert Polonsky will make the decision on Steen's appeal—a legal step available to civil service employees in cases of dispute on administrative decisions.

Chairman Mel Battye of the personnel board will miss the special hearing. Battye is convalescing from a recent heart attack.

HOUSING PROBLEMS

UC Prof Outlines Basic Measures To Reduce Racial Discrimination

More than 28 million Americans—nearly one-sixth of the nation — are not permitted to live where they choose. Racial residential segregation, more deeply rooted and resistant to change than any other form of racial discrimination, affects almost all members of minority groups: Negroes, Orientals, Indians, persons of Latin-American descent, Jews and Puerto Ricans.

These facts were disclosed in "Residence and Race," the final and comprehensive report to the Commission on Race and Housing, written by Davis McEntire, professor of social welfare at the University of California, Berkeley.

"Residence and Race" and the five preceding volumes all report on the research done by the Commission, a group of private citizens whose work was financed by a $305,000 grant from the Fund for the Republic.

Professor McEntire outlines ten guides in his book by which individuals and communities may reduce the incidence of discrimination in housing:

1. Attack discriminatory conduct rather than attitudes; it is easier to change action through law than to change opinions.

2. Change the social situation to influence attitudes and decisions.

3. Influence decision makers of housing—builders, mortgagors, realtors, governmental agencies — rather than whole communities.

4. Seek legislation to allow freedom of action to opponents of racial discrimination.

5. Mobilize citizen groups to effect changes in conduct and law.

6. Understand that Americans have no firmly fixed convictions about race and will respond to enlightened leadership.

7. Promote the association of minority and majority group members on the basis of similar economic and social circumstances.

8. Create community situations in which members of varied racial groups can work together.

9. Reduce the competition among racial groups for low cost housing by building more of it.

10. Do not confuse problems of racial segregation with socio-economic segregation.

Adult School Again Featuring Behind-The-Wheel Driver Course

Jefferson Union High School District is offering a course in behind-the-wheel driver training in its adult education program again this year.

The course consists of classroom study of traffic safety rules and sound driving practices as well as on-the-road supervised training in automobiles equipped with AAA dual controls.

Neville Ford Company of Daly City is loaning a new Ford and Howard Cuyler Chevrolet of Pacifica is loaning a new Chevrolet to the school for use in the program. The dual controls are supplied at cost by the California State Automobile Association.

School Superintendent Edward D. Morgan announces that Louis J. Martin, director of adult education, is in charge of the program. Instructors for the class are Donald Coder, George Griffin, Richard Warne, and Harold Vaplon.

Each student receives a minimum of six hours of actual behind-the-wheel driving instruction. He must also complete a course in driver education in which he studies the physical laws of nature as well as the man-made laws governing the operation of a motor vehicle.

The California State Automobile Association points out that courses in Driver Education include the study of such subjects as speed, mass, friction and energy and thus supplement the increased emphasis being placed on the physical sciences. Also included in the course are such topics as sound traffic practices, the psychology of the driver, and the economics of the motor age.

Last year some 200,000 students in California completed a course in the classroom phase of driver education and half of this number received behind-the-wheel driver training.

Westlake Banker To Spur Campaign for March Of Dimes

Louis Gazzano, local banker and newly named city chairman for the Westlake area in the 1961 "New March of Dimes" campaign, will be among those present at a pre-campaign luncheon for the drive next Monday, December 5, at the Villa Hotel in San Mateo.

Plans for the 1961 campaign will be discussed by city chairman Gazzano, an officer in the Westlake branch of the Bank of America, with some 40 other volunteer workers in the San Mateo County Chapter of The National Foundation.

Leaders hope to raise funds to continue the polio fight, which continues despite the polio vaccines, both developed through "March of Dimes" contributions over the years.

In the expanded public health program, leader's agree, funds also are badly needed for intensive research on both rheumatoid arthritis and birth defects which cripple thousands each year.

The 1961 "New March of Dimes" campaign is being held throughout January of the coming year, according to chapter Chairman James J. Kehoe, who will preside at the December 5 planning luncheon.

Court Slates Speaker On Europe Trip

Members of Court St. Mary No. 1155, Catholic Daughters of America, will be treated to a "Foreign Travels Night" following the business meeting on Thursday evening, December 1, at Our Lady of Perpetual Help Parish hall in Daly City.

Showing slides of interest taken during her travels in Europe this past spring and summer will be Mrs. Agetha Heyden of Daly City. She will include the visit to the Black Madonna in Spain.

Miss Eloise Sauer of San Francisco will show movies taken while she toured throughout the European continent and Ireland early this fall. Both ladies are members of Court St. Mary.

On December 15 the Court will hold its annual Christmas party.

Mrs. Esther Day has been appointed chairman by Mrs. Arthur Dikas, Grand Regent. She is planning the entertainment, to be provided by some of the talented sons and daughters of members. Refreshments will be served at the close of the evening.

Job Outlook Good For '61 College Grads

The 1961 job outlook for graduates of Pacific Coast colleges and universities, especially in the Los Angeles area, is bright but starting salaries will be only slightly higher than in 1960.

Pacific Coast employers, questioned in a survey, plan to hire 20 per cent more February and June graduates next year than they did this year. Heaviest demand is for scientists and engineers with advanced degrees.

The figures are taken from a survey of 308 diverse Pacific Coast companies and agencies, conducted by the placement bureaus of the University of California at Los Angeles, San Diego State College, San Francisco State College, and the University of Washington.

The sharpest rise in job opportunities is expected in the Los Angeles area, up to 42.6 per cent over 1960, followed by the Pacific Northwest (up 16.9 per cent), San Francisco (up 4.6 per cent), and San Diego (up 1.3 per cent).

Employers will keep their doors wide open for graduates with Master's degrees, especially in aeronautical engineering (up 180 per cent), electrical engineering (up 172 per cent), and mathematics (up 168 per cent). Advanced degree holders in physics, civil engineering, sales engineering and electronics will also be popular.

Starting salaries will be about five per cent higher than in 1960, although graduates with Master's degrees can expect a more substantial boost, according to Donald P. LaBoskey, manager of the UCLA Student and Alumni Placement Service, who headed the Los Angeles part of the survey.

Although jobs will be plentiful in most fields, company recruiters will demand higher standards from job applicants than ever before, LaBoskey reported, and will pay increased attention to the graduate's general personal qualifications.

USF Director To Visit Jeff, W'moor Friday

Dr. A. P. Donoghue, Director of Admissions at the University of San Francisco, will visit two secondary schools in Daly City this Friday, December 2.

Dr. Donoghue will be at Westmoor High School at 9 a.m., and at 11 a.m., he is scheduled to visit Jefferson High School. Dr. Donoghue is visiting these schools at the invitations of the schools' respective counselors.

The purpose of Donoghue's visits is to acquaint local students with the offerings of the University of San Francisco and outline procedures for admission to prospective applicants.

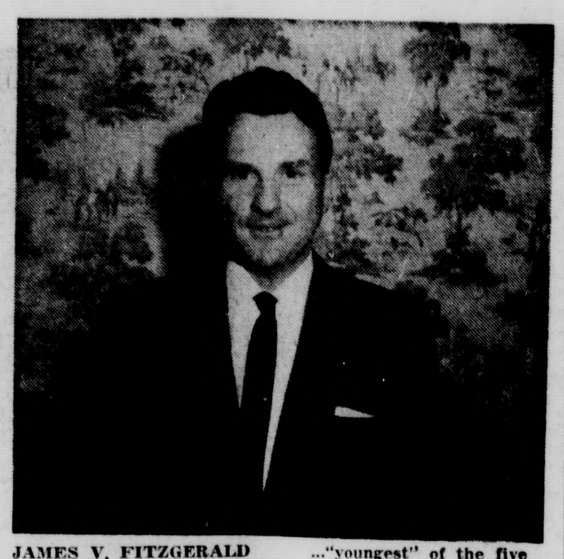
Rotary Scholar To Speak On Belgium

A young student of international relations, just home after a year of research in Bruges, Belgium, will be the local Rotary Club's speaker at their next meeting.

She is Miss Patricia Gallagher, a 1959 graduate of Stanford. Miss Gallagher's thesis for post-graduate work at the College of Europe in Bruges was entitled "Coordination of Research in Euratom," an essay dealing primarily with the administrative operations of the international organization. Miss Gallagher is planning to work in the international field and hopes to obtain a position with the U.S. Information Agency.

She is a graduate of Menlo-Atherton High School, 1954, and has attended the University of Oregon and London University School of Economics.

She studied in Belgium as a Rotary Foundation scholar.



JAMES V. FITZGERALD ..."youngest" of the five

JIM FITZGERALD

Ex-San Bruno Mayor Will Be SM County's Youngest Supervisor

James Vincent Fitzgerald Jr., supervisor-elect in San Mateo County's north end First District, brings a consistent record of personal achievement to the five-member board when his four-year term begins next January 3.

"Jim" unseated eight-year incumbent Tom Callan of Colma November 8 in balloting that was as close as the Kennedy-Nixon returns.

Fitzgerald at 41 will be the youngest member of the county board. Alvin Hatch of Half Moon Bay is 84, Edward McDonald is 78, T. Louis Chess is 73, and William Werder is 57.

A native of San Franciso where he attended Galileo High School, Fitzgerald entered the political arena in San Bruno eight years ago. Since his re-election to San Bruno's city council, Jim held the job of mayor four year—a period that was marked by widely publicized progress in the mid-Peninsula community which now has a population of 20,000.

An insurance executive by profession, Fitzgerald has a "businessman's management outlook for government."

"It think good management can get more out of the taxpayer's dollar and still supply adequate services," said Fitzgerald in previewing his plans for his new office. "I have some ideas which I think will benefit the county and these I will discuss in January."

Fitzgerald's campaign for the $9000 a year post was predicated on "the need for a new approach to the governmental management of San Mateo County."

San Bruno's tax rate during Fitzgerald's tenure as a city councilman dropped from $1.65 per $100 in 1952—his first year, to $1.42 at present. During this period, San Bruno experienced a vigorous $2 million capital improvements program, only $380,000 of which necessitated a bond issue—all of this latter amount for improved fire protection. Water department profits went into the capital improvements fund, and despite these fire department improvements, the tax rate and water rate were not increased. San Bruno's current operating surplus amounts to $350,000—a healthy municipal state of affairs.

Adds Fitzgerald: "Low taxes and progress can be maintained only with efficiency in operation of government by applying modern business methods. It has been proved in San Bruno. The tax rate is lower today than it was nine years ago, even with inflation and unprecedented capital expenditures made necessary by lack of foresight in years gone by. Only through efficiency in government and planning for the future can we keep taxes in hand."

San Bruno since 1953 has a new $350,000 city hall, a $150,000 public library, a $350,000 Community Center, $350,000 for six off-street parking lots (no parking meters), a $90,000 municipal swimming pool, $110,000 addition to the library—an improved children's section, and acquisition of several small parks.

San Bruno's capital improvements fund is bolstered by a unique $50 per lot building permit fee, plus water department profits.

A Navy veteran from 1941-45 when he served in intelligence, Fitzgerald attended University of Hawaii during his military tour, then entered the insurance-real estate field.

He is a past member of the San Mateo County Grand Jury, vice chairman of the College of San Mateo bond drive, San Bruno chairman of the Peninsula Hospital Bond Drive, City of Hope and United Crusade drives, and a Cub Scout representative.

He is affiliated with the Elks Club of San Mateo, the San Mateo Fryers Club, Optimist Club, American Legion, San Mateo County Insurance Agents Association, North SM County Board of Realtors, the 30 Club, and Parkview Homeowners Association.

Jim and wife Jean are the parents of James V. Fitzgerald III, age 14, Christopher Scott Fitzgerald, 12, and Susan Lee, 7.

Westlaker Gets SF Chamber's 'Rookie' Award

Westlake resident Jerry H. Brock, 24-year-old insurance agent who lives at 88 Crestwood drive, has been named "Rookie of the Year" by the San Francisco Jr. Chamber of Commerce.

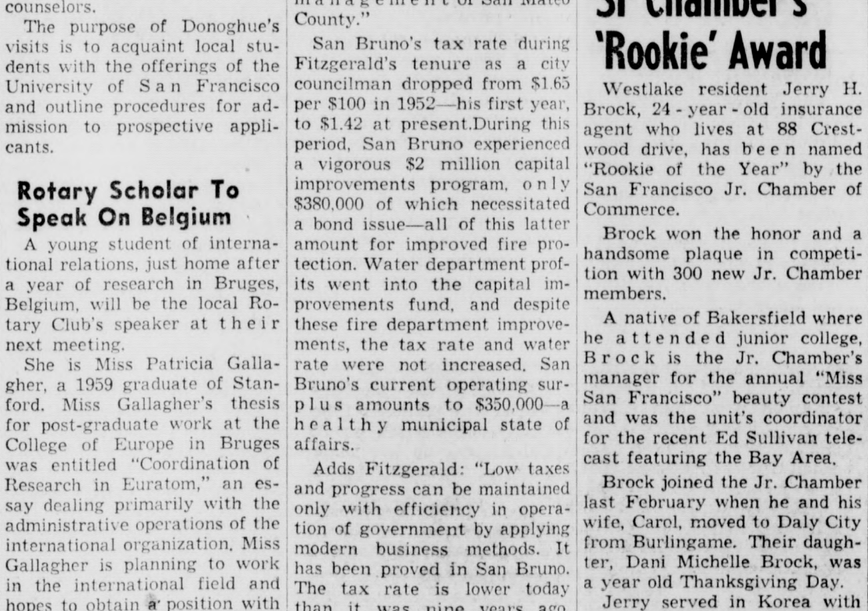
Brock won the honor and a handsome plaque in competition with 300 new Jr. Chamber members.

A native of Bakersfield where he attended junior college, Brock is the Jr. Chamber's manager for the annual "Miss San Francisco" beauty contest and was the unit's coordinator for the recent Ed Sullivan telecast featuring the Bay Area.

Brock joined the Jr. Chamber last February when he and his wife, Carol, moved to Daly City from Burlingame. Their daughter, Dani Michelle Brock, was a year old Thanksgiving Day.

Jerry served in Korea with the Army in communications.

He presently works as a special agent for Firemen's Fund Insurance company and is a member of the Olympic Club and a candidate for its rugby team.



CITY officials have calendared Daly City's 50th birthday celebration for October next year. Planning committee coordinator Ramona Birke marks the date with Mayor Frank Pacelli and Councilmen Joseph Verducci and Bob St. Clair. Daly City's golden anniversary actually falls on March 11, 1961, but the committee believes the extra time is needed for planning an event to remember.

You Can Save On Deductions For Dependents

Do you contribute to the support of a dependent, but cannot claim him because you do not furnish over one-half of his support?

If your dependent can qualify in all other ways except that you do not furnish over one-half of his support then perhaps this will help you.

Where two or more persons contribute more than 50% to the support of a dependent and each could claim the dependent except for the fact he did not contribute more than 50% of the support, then one of the contributors can claim the dependent provided:

1. The taxpayer claiming the dependent contributed over 10% of the support, and

2. Every other one who contributed over 10% to the support agrees not to claim the dependent for 1960.

One of the agreements, form 2120, must be signed by each person (other than yourself) who contributed more than 10% to the support of the dependent. The agreements must be filed with your return claiming the deduction for the dependent.

In other words, suppose that you and your three brothers each contributed 25% of the cost of supporting your mother. By agreeing among yourselves, any one of you can claim the dependency credit for any year that the others are willing to sign an agreement, form 2120, that they will not claim it. You can take turns, or one claim it every year. You cannot pro-rate the credit between you. One must claim the full credit.

Now is the time to consult with the others contributing towards the support of your dependents and agree among yourselves on who is going to claim that deduction this year and who is going to file declarations that they are not claiming the deduction.

Great Interest In Meetings For Senior Citizens

As the result of great interest displayed in the meeting of Westlake's group of senior citizens last Wednesday, special arrangements have been made for additional meetings to be held every Wednesday, at the social rooms of the Westlake Community Baptist church, Elmwood Drive and Southgate Ave.

Twenty different states were represented by the Westlake residents who registered at the first meeting. Ages ranged from 60 to 80.

It is planned to hold these gatherings each Wednesday, beginning at 10:30 in the morning and continuing until 3:30 in the afternoon. Those attending may bring sandwiches for the noon hour, and coffee and tea will be served from the church kitchen.

Mrs. Alyce Madsen, who is in charge of the meetings, announced that all residents of Westlake in the older age or retired group, are cordially invited to attend, regardless of church affiliations.

A wide variety of games is being provided for entertainment. Community singing and several informal talks by the members of the group are being scheduled.

The enterprise is in line with what is being accomplished in San Francisco and other cities, to offer retired persons, both men and women, new interests, pleasant social contacts, and stimulating talk and entertainment. It is aimed to attract all of Westlakes retired persons to participate actively in these gatherings.

Christmas Tree Sales Here Will Aid Needy Families

The local Society of St. Vincent de Paul, through its president, John Muller, announced the opening on December 3 of a Christmas tree store at 6315 Mission street, opposite McGraw's Pharmacy.

A complete line of quality Christmas trees will be offered at reasonable prices.

Proceeds will be utilized in providing Christmas baskets for deserving needy families in this area.

Muller points out that this is a most worthy cause in which all the people of Daly City can easly participate by merely making their Christmas tree purchases at 6315 Mission street.

Bill Bricker Back In Civilian Ranks

Marine Cpl. William H. Bricker, son of Fred J. Bricker Sr., 313 Peoria street, Daly City, was released from active duty on October 25 while attached to the Marine Barracks, Treasure Island Naval Station, San Francisco.

You Can Reduce Your Income Tax By Deducting Stock Market Losses

Do you have stock market losses? If so, then consider selling the stocks now and using the loss to reduce your tax.

Warning! Do not purchase like or similar stock within 30 days before or 30 days after the sale. If you do, the loss is not allowable.

Here is how to figure capital gains and losses. If you have held the asset for more than six months the gain or loss is "Long Term" and if you have held the asset six months or less the gain or loss is "Short Term."

Short term gains are taxed as ordinary income but only 50% of long term gains are taxed. Also, if your taxable income is over $18,000.00 for a single person or $36,000.00 for a married couple you should use the alternative tax computation for capital gains and pay only 25% of the total amount of your long term capital gains as tax.

You add all your long term gains and deduct all your long term losses.

Then add all your short term gains and deduct all your short term losses.

If you have a long term gain and a short term gain you compute the tax on each separately.

If you have long term gains and short term losses you deduct the short term losses from the long term gains and compute the tax on the remainder as long term gains.

If you have long term losses and short term gains, you deduct the long term losses from the short term gains and include the remainder as ordinary income.

If you have more losses than gains, or only losses, then you can use the loss to offset ordinary income up to $1,000.

Capital losses, either long or short term, are deductible in full from capital gains. They are deductible up to $1,000 from ordinary income in any one year. If your loss amounts to more than $1,000 it can be carried over and treated as a short term capital loss in succeeding years. You can deduct $1,000 each year for the next five years, if your loss amounts to that much.

Your loss can be deducted in full from capital gains in any year that you have capital gains.

YOU CAN CHEER NEEDY OLDSTERS BY CALLING THE XMAS BUREAU

The Community Christmas Bureau is again making a plea for lonely, ill and forgotten elderly citizens of San Mateo County who will have sad Christmases without community support.

The Bureau, the official clearing house and information center for those who wish to give to someone at Christmas time and for the donor groups or individuals who wish to give but do not know those in need, has been working closely with the social welfare and health agencies throughout the county to learn of needs and situations which could be passed on to donor groups for their consideration and help.

Mrs. Arthur Wall, chairman of the Community Christmas Bureau, states that there are 3600 senior citizens in San Mateo County known to the Department of Health and Welfare—100 of these live all alone, often in poor circumstances, in poor health and without known relatives or friends to cheer or help them. These lonely elderly persons would be so pleased by a gift of cash through which they might buy their own small needs or by a merchandise order.

Some of the typical situations which have been called to the attention of the Christmas Bureau are:

A 76-year-old bachelor of European birth—lonely and ill, has no relatives and few friends—a small pension does not cover his personal needs—and in such poor health he cannot work to supplement his income—he asks for cash or merchandise order for a new pair of shoes.

Mrs. J., 78 years of age, is afflicted with arthritis, aside from her deformed hip and leg. Living alone in a "run-down" house her needs are many, one of them a warm bathrobe. Cash for bus fare and merchandise order for robe.

This 91-year-old widower living alone close to blindness has one living relative, a daughter, too ill to assist him. Cash for his personal wants would make his Christmas.

Living alone in a trailer, on a small pension, this 77-year-old widow tries desperately to meet her obligations. She will have no one to remember her with a gift at Christmas. Cash to buy what she needs would be the best gift ever.

At seventy, alone and in need of cheer, this widow clings to her home since it offers her memories of her husband, and might be given a new "lease on life" were she able to afford something new for the home. Cash.

A victim of a chronic disease and without much longer to live, Mrs. M., because of lack of money, is unable to visit her only living relative, a mentally retarded daughter, living in an institution. A bus trip away from San Mateo—cash for occasional bus fares—would mean so much to this ailing mother.

Gifts may be sent to the Community Christmas Bureau, P.O. Box 109, or to the Volunteer Bureau, 119 Primrose road, Burlingame. If more information is desired phone DIamond 2-0801.

AROUND TOWN

By ROY HURLBERT

SUCCESS of the Council's proposed Mission street rehabilitation program—off-street parking, renovation, and elimination of certain eyesores—in the final anaylsis hinges on the cooperation of the individual property owners.

The Council and the Chamber of Commerce will meet these people more than half way. A spirit of serious cooperation is necessary for fulfillment.

TIME Magazine recently shot several pictures of Daly City's Hope Lutheran Church for a December feature.

Headquarters back east is planning a spread on unique church architecture. Hope Lutheran was designed by Mario Corbett of San Francisco.

Paul plays the difficult instrument while wife Virginia accompanys on the piano. Periodically at Rotary Club meetings Hupf and Westlake Shopping Center manager Jack Kendree entertain with a violin duet.

Paul acquired his violin from a client who was short of cash and couldn't pay his bill. Hupf hasn't had to fiddle in court to sway a jury, however.

DALY CITY residents like to read.

The city manager visited both the new main library and the old Mission street branch Monday afternoon and business was good.

Although the $200,000 new library opened with 7500 books on the shelves, only about 1200 were left when the CM made his tour. The Mission branch likewise is well populated.

FISH-GAME OFFENDERS

Game Wardens' Toll Last Month: 1080 Sportsmen Fined $41,000

Avarice, guile, ignorance, and plain orneriness were parlayed into a total of $41,000 in fines and 973 days in jail last month for 1080 violators of conservation laws.

The transgressions, which were typical of those which confront California's game wardens every month, were many and varied. Here are some of them:

'Selling' Sport Caught Abalone—Two Ukiah men and a Monterey man learned the hard way that you can't sell or trade abalone (or any other game or fish) taken on a sport fishing (or a hunting) license—not even for apple cider, apples or peaches. They were spotted by a warden at three different fruit stands on their way home from a skin diving trip to the ocean. All three are on probation.

Removing Deer Tag From Antlers—A Paradise man learned, through payment of a $25 fine, that you can't use a deer tag twice—not even if you erase the mark you had made on the "number of points" category on the tag.

Using Snag Gear in Spawning Areas—An Anderson father learned that he will be subject to imprisonment if his son tries to snag salmon again. A game warden apprehended both father and son on a riffle near the Anderson bridge while dad was teaching sonny how to do the job properly.

Destroying Private Property—A Brentwood man paid a $25 fine after a game warden spotted him shooting up fence posts with a shotgun.

Altering Deer's Antlers—No matter how artistic the effect, "kiting" a deer's antlers is just as illegal as "kiting" a check. A Fairfield man paid a $100 fine to learn this. He had killed a spike buck in Modoc County and then whittled one antler to make it look like a forked horn. The warden admired the art work, but not the larcenous intent. He commented that the antler was nicely done, "even to the darkening of the antler where it had been worked on."

Loaded Rifle in Car—A Santa Ana man lost $35 for carrying a loaded rifle in his car and lost his deer tags because he was upset about being cited. He told the game warden he was under the impression that the road upon which he was driving is not a public road and therefore he could carry his gun loaded. When he learned that he was actually on a public road he became angry and ripped up his deer tags. He paid a $35 fine later that day in Alturas.

Cub Pack 343 Plans Xmas Party

Cubmaster Ray Squires today announced that Pack 343 of Westlake will hold a Christmas party on December 19. Mrs. Charles Boerio, Mrs. Boysen, Mrs. Salsgiver, and Mrs. Van Horn are in charge.

Den 2 made a clean sweep of the honors at the October meeting by being first in uniform inspection and parent attendance.

Assistant Cubmaster Bill Bjorkquist lead the boys and their parents in an enthusiastic songfest, after which Assistant Cubmaster John Martinelli and Bob Noryko continued the fun with some rousing games.

An outing to the News Call-Bulletin on November 26 will be followed on December 10 by a special trip to see the movie, "Ben Hur."

Steven Kableciek, Michael Diakas, Lee Trobeck, Tommy van Ham, and Mark Gleason became members of Pack 343 in an induction ceremony, and Gary Watts joined the Pack as a transfer.

David S. Glines, Council Activity Chairman is in charge assisted by Henry J. O'Toole, Council Lecturer and Thomas E. Shimer, Grand Knight.

'Nut Formal' Slated Here For Teenagers

The Department of Recreation's Hi-Fi Teen Club will hold a Christmas party and dance for its members on Saturday, December 17, at Daly City's War Memorial Community Center.

The theme of the dance will be a "Nut Formal." Each person attending must wear at least one article of clothing from formal wear. For example girls may wear jewelry, gloves, high heels, bermudas and a sweat shirt. All participants are asked to use their "imagination" to the fullest extent.

Admission will be 43 cents. All members must also bring a 25 cent comical gift to be exchanged for another.

The doors will open at 7:53 p.m.

Serving as a clearing house, as well as a referral agency, the Bureau also coordinates the Christmas efforts of groups, individuals, and welfare agencies. It is headed this year by Mrs. Arthur Wall, assisted by Mrs. Jack Naud.

Focused on the Christmas needs of families and separate persons who are known to the welfare agencies, the Bureau is staffed by volunteers recruited by the San Mateo County Volunteer Bureau, which is issuing a call for more workers to assist in the expected rush in the Naval Reserve Center headquarters. All those interested are asked to call the Volunteer Bureau, 119 Primrose Road, Burlingame, DI 2-0801.

"The caseload of people needing Christmas help for themselves and their children this year is increasing due to seasonal layoffs and increased unemployment," Mrs. Wall observed. "We hope people will give generously and above all give early." Last year the Bureau assisted 2,272 individuals with either cash, merchandise, shoe orders or food.

Contributions of cash or merchandise orders may be brought directly to Christmas Bureau headquarters, or sent addressed: The Community Christmas Bureau, P. O. Box 109, San Mateo, California.

The Bureau will remain open Monday through Friday, from 10 a.m. to 4 p.m. Thursday evenings, December 8 and 15, until 8:30 p.m., and on Saturdays, 10 a.m. to 1 p.m.

LETTERS ABOUT PETS

'Best Friend' Contest Open To Peninsula Youngsters 13 & Under

While some 1500 of the nation's top dogs compete for prizes in purebred classifications at the 57th annual San Mateo Kennel Club Dog Show next month, three of the pets will win trophies for being merely a child's "Best Friend."

The "Best Friend" contest opened today and youngsters 13 and under from Daly City to Palo Alto, are eligible to submit their dogs for the honor. Handsome trophies will be awarded first, second and third place winners. In addition, first place winner will receive a $10 cash prize.

The San Mateo Kennel Club, sponsors of the show to be held at San Mateo's Fiesta Building on December 4, do not require that the "Best Friend" entries be purebreds. Young dog owners may enter simply by writing a letter explaining "Why My Dog is My Best Friend." Letters must be submitted by the child and should tell of the dog's faithfulness, devotion, kindness and/or heroism. There are no restrictions as to breed, age or size of dog.

Held for the first time last year, the "Best Friend" contest attracted widespread interest and recognition. Winners were Jimmy Peters of Millbrae, Susan Jo McConaughey of Belmont and Patty Baier of San Mateo.

Entries for this year's contest must be postmarked before midnight, December 1, and mailed to the San Mateo Kennel Club, 1299 Bayshore highway, Burlingame.

All entrants will receive free passes to the show, rated one of the outstanding events of its type in the nation. More than 1500 purebred dogs, representing 115 different breeds, will participate in the all-day show which includes obedience trials. The show is under the direction of William F. Fox of Piedmont, noted dog breeder and judge.

17th District PTA To View The Film 'That They May Live'

Combined executive board and regular meeting of 17th District, California Congress of Parents and Teachers, will be held at the Health and Welfare Building in San Mateo, next Monday, December 5. President Mrs. Foriest Cunningham, who recently returned from the state board of managers meeting in Los Angeles, will preside.

The program will feature the film "That They May Live," which fully covers an important message on mouth-to-mouth resuscitation. Gordon McKeon, coordinator of Health-Physical Education, San Mateo County, will discuss this technique of artificial respiration. McKeon stated that this film was chosen from a number of others to be used by the Red Cross in its resuscitation program. The movie is endorsed by the San Mateo County Medical Association and has won several awards.

The National Academy of Sciences-National Research Council Committee on Artificial Respiration two years ago reviewed the data on artificial respiration obtained through research projects supported by the Department of the Army, the American National Red Cross, and agencies.

It was unanimously agreed that the mouth-to-mouth (or mouth-to-nose) technique of artificial respiration is the most practical method for emergency "revival" of an individual of any age who has stopped breathing, in the absence of equipment or of help from a second person, regardless of the cause of cessation of breathing.

OUTDOOR DECORATIONS

St. Francis Heights Residents Urged To Enter Xmas Competition

Some 1200 homeowners and lessees residing in St. Francis Heights have been invited to enter an annual Outdoor Home Decorating Contest during Christmas week.

The contest, sponsored by the St. Francis Heights Improvement Association, already has a fund appropriated to purchase awards for winners in at least 10 major categories, Thomas F. Noonan, association president, said. To get the contest airborne, Noonan has named Sanford "Sandy" Heisler, Fern Goin, and Mary Ann Wilson as committee leaders.

In addition to first award, categories will include a Best Religious Theme, Most Original Decorative Creation, Best Teen-Age Decoration, Best Lighting Arrangement, and six others.

Noonan said a trio of experts in color, lighting and artistry—members of the Society of Western Artists—will be asked to serve as judges. They are John Garth, Maria Von Ridelstein, and Ted Smart.

Hundreds of homeowners in St. Francis Heights subdivision will spend their first Christmas in newly purchased homes. In a spirit of community pride, they and their neighbors will attempt to match the dazzling outdoor Christmas decorative effects which annually draw throngs to San Francisco's famed "Candy Stick Lane" and nearby Lakeshore Plaza.

No contest blanks, entry forms or any other rigmarole is necessary to enter the Christmas Home Decorating Contest here, Noonan said. He promised that if a home is decorated it will be automatically appraised. If it wins in any of the categories including top prize, it will be so awarded.

"Something for the children" is also on the Christmas week agenda. Under the auspices of the Association, Santa Claus will tour through St. Francis Heights distributing candy canes or Christmas stockings to kiddies, Noonan said. Date of the latter activity has not been firmly set but will be announced later.

New Chapel Ceremony At Notre Dame

Students and faculty at College of Notre Dame in Belmont, California, this week placed tesserae stones in a mosaic cross which will be part of the sanctuary wall of Notre Dame Memorial Chapel now under construction, Sister Catharine Julie, president of the college, announced today.

Designed by Sister Margaret Mary, head of the Art Department of the college, the mosaic cross is 12 feet by 9 feet in size.

The formal ceremony began when the Rev. Francis Manelis, chaplain for the college, blessed the stones, and the participants proceeded in academic precession to the building site where students and faculty placed the stones in cross form. The cross was then set in exposed aggregate and was placed in the center of the sanctuary wall behind the altar.

Expressing the enthusiasm of the students, Miss Judith Buonaccorsi, president of the Associated Students, and daughter of Mr. and Mrs. A. L. Buonaccorsi, 900 Rodney drive, San Leandro, said, "As students, we feel this ceremony is a symbol of the integral part we play in the College and a truly fitting way to begin the preparation for the Christmas season."

Vincent Raney of Belmont is the architect and Morris Daley Inc. is contractor.

Vista Mar Plan Impresses U. of Kansas

Vista Mar School was lauded in an article appearing in the October issue of the University of Kansas alumni bulletin.

The Vista Mar School was designed by architect Mario Ciampi at a cost of $480,000 and has received award citations in national competition by the American Association of School Administrators. A 'staggered' day program is employed at the school and has proven most advantageous for both teachers and children."

Today's Nurse Better Qualified, Shows 'Tenderness And Technique'

Has today's nurse, the traditional "angel of mercy," had her halo displaced by the increasing number of "hats" she must wear in this era of highly specialized, scientific medicine?

No, according to a recently published book by Genevieve Rogge Meyer, UCLA social psychologist. Today's nurse is achieving a balance between "Tenderness and Technique" (the book's title) that makes her an effective compromise between the "ministering angel" and the cooly efficient, disciplined professional.

Published by the UCLA Institute of Industrial Relations, the book is the result of a three-year survey of nursing trends. The survey was carried out by the Institute in collaboration with the UCLA School of Nursing with the financial support of the U. S. Public Health Service.

Most women are drawn into the field of nursing, the survey indicated, by the "ministering angel" concept of nursing. However, modern nursing trends have been "upward" toward more complex technical and administrative functions which have appeared to many to be taking the nurse "away from the bedside."

She now performs many of the technical functions previously carried out by the physician. She is assuming increased administrative duties as leader of a nursing team that includes practical nurses and aides, who have taken over many of the nurse's patient care functions.

This "upward" trend is balanced, Miss Meyer concludes, by an "outward" trend — a growing concern of the nurse with the full problem of health, including it maintenance as well as its restoration, and the psychological or emotional aspects of illness. This has meant application of the scientific as well as the intuitive method, of the social sciences as well as biologicall science, to "total" patient care.

Oceana Gridders End First Year With 5-3 Record

Hard running, clutch passing and a sound defense provided Oceana High's Hawks with a season-ending 15-6 victory over Lincoln's (S.F.) J. V.'s, and brought their final record to a respectable 5-3 in their initial season of football competition.

In cross country individual varsity competition, Oceana's team composed of Dan Vincent, Jim Beeler, Steve Little, Frank Rhodes and Clint Miller placed third in the North Coast Section races—an outstanding feat for a first-year school which had previously run only against J.V. competition in almost all meets.

With his varsity basketball schedule near completion, coach Richard Burt announces that of the 24 teams thus far scheduled, his Sea Hawks (who will be "Tigers" by basketball season) will play 15 regular varsity squads, among them San Carlos and Terra Linda.

The 130's schedule in only about half completed.

Four-Lane Freeway Proposed Between Pacifica, Half Moon Bay

SACRAMENTO — The California Highway Commission last week took under consideration the adoption of a freeway routing for the relocation of 6.2 miles of State Sign Route 1 in San Mateo County between the Half Moon Bay Airport and the south city limit of Pacifica.

State Highway Engineer J. C. Womack has recommended a route which runs east of the present highway at distances ranging form a quarter mile to about a mile. The recommended route runs well to the east of the Devils Slide area on the existing highway.

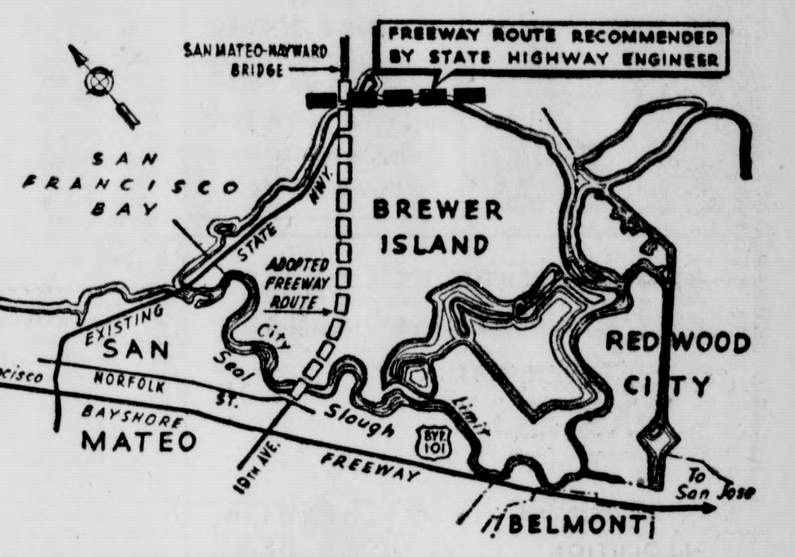
The recommended route is Alternate EJ as discussed at a public meeting held by the Divisilon of Highways at Pacifica on August 25, 1960.

Womack told the Commission that of the three most feasible routings considered the recommended route is the shortest, would cost the least for rights of way and construction, and would provide the greatest savings to highway users.

The Commission requested Womack to ask the San Mateo County Board of Supervisors if it wishes the Commission to hold a public hearing on the matter before taking further steps to adopt a freeway routing.

Plans of the Division of Highways call for the construction of a four-lane freeway at a cost of approximately $9,570,000 including sufficient width of right of way for an ultimate six lanes. Start of construction would depend on the availability of future highway funds.

State Studying New Freeway Route Near Brewer Island



SACRAMENTO — The California Highway Commission today under consideration the adoption of a freeway route for one and a quarter miles of State Highway Route 289 across a portion of Brewer Island in San Mateo County.

State Highway Route 289 was added to the State Highway System by the 1959 Legislature and the section now before the Commission is the first portion to be considered for route adoption. The legislative description of Route 289 is "easterly of the Bayshore Freeway from San Jose to . . . . the Hunters Point Freeway."

State Highway Engineer J. C. Womack recommended a route across the east edge of Brewer Island. It is Alternate B as discussed at a public meeting held by the Division of Highways in Redwood City on October 6, 1960.

In recommending Alternate B, Womack told the Commission that it would be less disruptive to the proposed community development of Brewer Island than Alternate A farther inland, and said it had the official support of the San Mateo County Board of Supervisors. He said also that Alternate B would permit a better spacing of interchanges on the intersecting freeway route for State Highway Route 103.

Womack noted that adoption of the recommended route would involve moving the toll plaza from the westerly end of the San Mateo - Hayward Bridge to the easterly end when the bridge is reconstructed. He said, however, that the advantages of Alternate B outweigh any possible disadvantages.

The Commission requested Womack to ask the San Mateo County Board of Supervisors if it wishes the Commission to hold a public hearing on the matter before taking further action to adopt a freeway routing.

A delightful treat is in store for local residents when on December 8 charming Marian Koehler Rowe of KPIX's "Adventure School" (weekdays, 7:30am) appears as guest speaker at the Friends of the Library book review at Westlake Bowl. Mrs. Rowe will review children's books with special emphasis on Christmas giving.

A most gracious person, Marian Rowe is particularly well-qualified to discuss children's books because so much of her life has been devoted to working with children. When her three youngsters were small, she established "Adventure School" nursery school in North Hollywood which she operated for 25 years. Moving to San Francisco she began her "Adventure School" on television. The program has become one of the most successful of local programs and has won many national honors including McCall's Gold Mike Award and Ohio State Honorable Mention. Day after day thousands of little tots around the Bay join their beloved TV teacher in a beautifully balanced program of fun and instruction. Mothers, too, can learn from her show because with seemingly little effort she manages to cope with every situation that arises among her television pupils. Watching her, one can't help think "how does she do it?" She greets a new group of children each morning, they trustingly put their hands in hers and go into the studio with hardly a backward glance at their mothers and behave like little angels during the entire show. Skillfully, quietly in the background she guides them, and they are completely absorbed, hardly realizing they are on camera.

Daily "Fun Sheets" which explain each day's project and what materials are used are avaiable by writing the program. Also write the program if you would like your child to appear on the show. You will be notified of the date because as Mrs. Rowe explains, "we take turns."

Little tots are very ardent television viewers, and what an apportunity presents itself to guide those eager little minds through the television screen! Mrs. Rowe is singularly conscious of this real opportunity and privilege. Certainly her contribution is a great one as she helps guide our future citizens of tomorrow.

LOREN TRIPP WINS BOWLING CHAMPIONSHIP

Loren Tripp, Lexington Club bowler in the 875 Classic league, came from behind to win the second Westlake Bowl House Championship tournaments in the finals Saturday night.

The lead changed hands four times during a torrid final round. Tripp averaged 188 scratch while George Soles took him by nine total pins. With the same number of games won, the factor that crowned Loren king was the 1½ points for series wins.

In the last round, Tripp went from third to first, while Fred Von Husen dropped to fifth from the lead. For his victory, he received $100 in cash, a trophy and had his name engraved on the perpetual trophy.

In the money were the following as they finished: Tripp, George Soles, Frank Hubert, Allen Pettigrew, Fred Von Husen, Chas Brusco, Fred Thompson, and Bob McNeilly.

With the male champion wearing his crown, the Women's House Championship qualifying rounds start December 1 with the tournament set up exactly like the men's, bowling four games across eight lanes for a $10 entry fee.

United Crusade Donations Aid Your Tax Cuts.

Gifts of securities to the United Crusade may result in important tax advantages.

This was the reminder today of Mortimer Fleishhacker Jr., president of the "big give" organization which provides financial support for 263 social welfare agencies. The Crusade is now completing its $11,250,000 campaign with a week of intensive effort to reach the many thousands of individual prospects who have not yet made 1960 gifts.

And Davis, Skaggs & Co. in a note to its clients explained just how they may save taxes:

"For example, suppose you own a stock now worth $500, which originally cost you $100. Instead of giving the Crusade $100 in cash this year, you can give your security which cost you $100. In this way, you are helping the United Crusade with a $500 gift and giving yourself a $500 tax deduction, rather than having a potential $400 capital gains liability.

"The Crusade notifies the donor of the amount of the sale of the securities as soon as it receives the proceeds. The sale can be made through any broker suggested by the contributor," Fleishhacker said.

Noting that the end of the year is a time for re-evaluating one's tax situation, Fleishhacker also suggested that both individuals and corporations consult with their tax advisors for other important advantages that may be derived through United Crusade contributions.

Consumers shop the pages of the Westlake Times—Daly City Shopping News because they know that's where the top stores and services place their advertising messages. These favorite newspapers carry more retail advertising (including food) than any other weekly in Northern San Mateo county. It's news about your community that you won't find ANYWHERE else.

The Key That Opens The Door To 34,500 Homes . . .

(And Eager, Qualified Buyers in Every One)

WESTLAKE TIMES

DALY CITY SHOPPING NEWS

He Makes Money!

Northern San Mateo County merchants have been building sales and profits for years by advertising in the area's finest media — Westlake Times - Daly City Shopping News. Where else can a merchant find the key that opens the door to 34,500 homes every week, at less cost than any other media in the area? It makes good business sense to a merchant to place his message before 140,000 prospective buyers in newspapers that are read cover to cover. The merchant knows, for example, that his cost to print and distribute 34,500 of his own advertising leaflets each week for an 8-inch by 10-inch message would cost a minimum of $525 a week, and readership would be doubtful. He knows he can buy that amount of space in the Westlake Times-Daly City Shopping News for less than $80, and be assured maximum reader exposure to his message—and more important—immediate reader reaction to his sales message. Hundreds of merchants know this to be true. You're missing out on sales if you haven't yet used the most dynamic media in your trading area — the Westlake Times-Daly City Shopping News.

LAW IN ACTION

CRIMINAL APPEALS

In civil cases either side may appeal to a higher court. But not so in criminal cases: If the trial court or jury acquits an accused person, the district attorney rarely appeals. At English Common Law a prosecution appeal was almost unheard of.

California allows some such appeals if a judge:

(1) Reduces the degree of the crime or the punishment set by the jury; (2) sets aside an indictment, or (3) gives the accused a new trial after conviction.

But if a court lets the accused off, the state, as a rule, seldom can appeal since it would put him "twice in jeopardy."

Since the trial court can set aside an indictment which doesn't charge a real crime, the prosecution may appeal to see if the law does in fact define the crime.

The government may also appeal on such questions of law as: Was a court right to rule that the defendant's acts were privileged? Was it right to say the statute of limitations had run? Did previous decisions bar further prosecution?

Recently a district attorney could not give certain records back to the accused which he needed for his defense. So the trial court dismissed the accused's indictment, and the higher court said the trial could go on only if the accused got his records back.

Of late courts have often called upon the prosecution to show a defendant evidence, such as names of his accusers, witnesses, or "informers." Otherwise the prosecution must drop its case. For an accused person needs to know such things before trial in order to prepare his defense. And the courts of appeal have backed him in this demand.

ROGER AUSTIN AND JOE BOLLENTINI ON SECOND TEAM

W'moor's 'Mighty Mite' Tom Dake Honored On All-Peninsula Grid 11

Fireplug-sized Tom Dake, Westmoor High's never-let-up senior halfback, was voted a first team berth on the 1960 All-Peninsula League football team by sportswriters Monday evening in San Bruno.

Dake sparked the Daly City eleven to a 4-3 league record. He ranked fourth in total yards gained.

Champion San Mateo dominated the first team with four Bearcats honored by the scribes who saw the games.

Player-of-the-Year went to San Mateo's outstanding halfback Jere Takahashi, a Japanese-American lad earmarked for collegiate stardom. Dick Vermeil of runner-up Hillsdale won the nod as "Coach of the Year." Second in the balloting was Yale Rolf of San Mateo.

Two Daly City players were placed on the All-League second team—center Joe Bollentini of Jefferson and senior guard Roger Austin of Westmoor.

Halfback Walt Prouty of Westmoor and Jeff's Bob Guerrero, a tough two-way tackle, made the Honorable Mention list.

All-League first team ends by unanimous vote were Bill Garhime of Mills and Bill Poulos of San Mateo.

George Baptiste of South San Francisco and Tony Medrano of Capuchino were chosen first-team guards. The tackle choices were Hillsdale's Jeff Kerr and Doug McCreary of Burlingame.

Frank Dunbar of San Mateo was pronounced the outstanding center.

With Takahashi and Dake in the All-League backfield were quarterback Tom Edwards of Mills and blocking back Dick Ja of San Mateo. Ja's achievement marked the first time the sportswriters had singled out a blocking back.

The sportswriters also voted special recognition to Serra High halfback Fred Oppezzo, one of the finest runners in recent history.

The second team selections:

Ends—Mark Moritz (Hillsdale) and Gordon Edwards (Burlingame), Tackles — Brad Nail (Hillsdale) and Frank Kagarakis (South SF), Guards —Wayne Cappa (Mills) and Autin (Westmoor), Center — Bollentini (Jefferson), Backs—Ray Plate (Hillsdale), Ron Witschy (South SF), Ralph Valdez (Capuchino) and Wayne Holbrook (Hillsdale).

Westlake Junior Bowlers Down Brentwood, Return Match Set

by Bob Sexton

The Westlake Bowl Jr. match game team continued its win streak by downing an up-and-down team from Brentwood Bowl. The win brought the Westlakers' total to seven in a row against no defeats. Leading the way was Ken Missenger with a 531 series, built around a 202 game. Just two pins back with 529 was Jim Fisher. Jim is one of the top five bowlers in the Junior Bowling Program at Westlake and about the only one out of the five who has yet to break that elusive 600 series. Score of the Brentwood match was 2515 for Westlake and 2355 for Brentwood.

This Saturday the Westlake team will travel to Brentwood for a return match. During the same afternoon the Westlakers will host a team of bantams in a match slated for 2 p.m. The team that will represent Westlake will be composed of John Barsotti, Mitch Mann, Rich Georgetti, Bob Bias, and Frank Knowlton. These are some of the top bantams in the Jr. Program.

For the Bowler of The Week you need look no further than Senior bowler Mike Lanier. His effort last week brought him a colossal 609 series. The highest series up to that point was a 582 turned in by ace bowler Randy Wilcox, also of the same team. Mike's games were 200 214-194.

High game honors for the senior league go to Carl Steigerwald for his 223 game. His series was 514. Frank Blum was steady as he pushed his team to three wins by posting a 525 series.

High scoring leaders in the female division were Mary Anne Crabb with a series of 465 behind games of 155-184-126. Following Mary Anne were Stephanie Singer 432; Marge Clark 417, and Carolyn Friedman 414. High games were rolled by Sherrie Cannell 144, and Doreen Daneri 143.

The bantam Pepsi Cola league is just a hair behind many of the Junior league teams in skill and ability. The bowling was especially good this last Saturday. Don Figini was the eagle-in-th-sky with his whopping 208 game. This ties the house record set way back in 1959. Don's series was a fine 437. Behind Don were Fred Arnke with 426, Rick Georgetti 421, Bill Mulcrevy 420, and Frank Knowlton 415.

High games in the league were turned in by Bill Mulcrevy and Don Figini with 181 and 208. Also having high games were Mitch Mann 177, Fred Arnke 164, Rick Georgetti 156-152, Gary Boscacci 154, Ron Dimaggio 166, and Frank Knowlton 153.

CHAMPIONS of Daly City's seventh grade touch-football league are these BYA Darts, sponsored by Aero Dodge of Daly City. Front row (left to right): Dale Taylor, Mike Dulac, Buddy Meek, Rick Smith and Craig Castro. Back row: Greg McCarthy, Greg Brenk, Bill Mason, John Glebow, Bob Hood, John Heick, Alan Namanny, Mike Shackleford and Corky Phelps. The coaches are George Brenk (left) and Everett Heick.

DALY CITY ELEVEN ENDS LOSING STREAK

Jeff Explodes In Final Period To Scuttle South City, 26-20

Jefferson High varsity coach Joe McGrath won't soon forget his '60 Indian footballers.

For a team that had "nothing" to begin with back in September, the Tribe finished like champions Thanksgiving Eve by roaring back to defeat South San Francisco, 26-20, in one of the wildest Big Games of them all.

Junior fullback Al Cacicedo heroed the comeback, rallying the Indians to a 20-point fourth quarter for a victory that couldn't have been sweeter.

It was Jeff's only win this campaign after eight losses and pulled the Indians out of the Peninsula League basement. The Tribe and South City shared the cellar with 1-6 final marks.

"Our boys really wanted to whip the Warriors," commented McGrath. "From game to game we were improving, and after almost upsetting Westmoor (the Indians lost out 14-13), we were confident for the Big One."

Next year it should be a different story at Jeff. McGrath, whose huskies this season played the closest "of any" against San Mateo, losing to the champ only 12-6, will have seasoned troops a year from now—sophs and juniors who started this campaign with virtually no experience yet made up for it with full-game hustle.

The South City comeback was the clincher. It was Jeff's fourth straight victory over their long-time rivals from the Industrial City. And it wasn't an easy triumph by a long shot.

South City still has the edge in the series with 18 wins to 14 for Jeff. There have been four ties.

The Indians got on the scoreboard first, early in the first quarter on a Cacicedo-led drive which ended as soph halfback Duane Baswell cracked over from the two.

QB Bob Miller's off-target passes—five were intercepted—gave SSF momentum and two rapid-fire tallies for a 14-6 halftime lead. Halfback Clyde Haddock, who stole four Miller throws, was the Warrior's standout and kept Jeff from soaring even more.

SSF tallied again early in the third quarter, but Cacicedo and Tony Montalbo took over the brunt of Jeff's packing and rallied the Indians for a final splurge. Cacicedo's 22-yard run minutes into the final period took Jeff to the SSF 15. From there T. Montalbo ran 15 yards and with Ed Crowley's extra point kick, the Indians narrowed the count to 20-13.

Jeff soon got the ball again and with Cacicedo carrying 9 out of 10 times, the Indians tied the count as Cacicedo hit the end zone from 8 yards out and Crowley's boot again was good.

This made it 20-all with three minutes remaining.

Jeff's revival left the Warriors limp and the clinching drive was climaxed as Montalbo went wide around end from the 15 for the tilt-winning tally.

Cacicedo was by far the game's best performer, racking up 133 yards on 19 carries, while Miller connected on seven key passes that netted the Indians 91 yards. South San Francisco completed four passes but wound up with "minus" yardage.

The Indians rolled to 235 yards on the ground and a net of 196 while the Warriors mustered only 98 yards via the same route.

Basketballer Gary Molossi, Indian end, hauled in five Miller passes for 70 yards. Miller's other hits were to Bob Brush and Sal Blas.

Two-way tackle Bob Guerrero, one of the few seniors on the Indian roster, was "outstanding," McGrath said. He also cited the heavy duty of center Joe Bollentini and guard Crowley.

It was quite a climax for Jeff to a dismal yet "productive" campaign.

The lessons learned this year by Jeff's now experienced regulars will give McGrath the nucleus of a squad that could be a contender.

Among those returning in 1961 will be Cacicedo, Baswell, Miller, Jack Derham, Larry Ahuna, Sam Ennon, Jim Belvin, Bob Kasper and Dan Hermosillo. With any kind of luck at all, next season's Indians will be back on the winning trail.

Sorely missed will be Guerrero and Crowley, a pair who played to the hilt throughout the campaign.

ROARING FINALE

Funai Passes Rams To 34-6 Win Over Mills

Westmoor High's varsity gridders exploded last Wednesday and knocked off Mills, 34-6, in final Peninsula League action for Coach Pete Matisi's hilltoppers from Daly City.

The victory, sparked by four TD passes from the right arm of junior Steve Funai, gave Westmoor a 4-3 league record —good enough for a tie with Capuchino for third behind unbeaten San Mateo (7-0) and Hillsdale (5-1-1).

The Rams wasted no time down south, belting to a 21-0 first quarter lead and a 27-0 halftime margin. Funai tossed two six-point passes to halfback Tom Dake, and others to Walt Prouty and Ron Petrocchi. Dake, an All-League mainstay, ran for the fifth Westmoor tally.

Mills' feared passing attack, directed by Tom Edwards, was stopped cold by the Ram line, led by guard Roger Austin and tackle Ken Magoon.

Funai in the finale previewed things to come in '61 by completing 9 of 12 passes against Mills for 294 yards. This was one of the best efforts of the campaign by any PL quarterback.

The Rams weren't far out of the title chase. Their losses were by respectable scores—28-6 to league champ San Mateo, 27-19 to runnerup Hillsdale, and 14-6 to Capuchino.

The 4-3 league record was Matisi's best and also was tops for Westmoor in four years of competition.

Salmon 'Run'

An outstanding salmon run, which already has toppled one record, is now in progress on the Sacramento river and its tributaries.

The State Department of Fish and Game said its Nimbus Hatchery operation on the American River has recorded 22,195 salmon this year, compared to 7154 at this time last year. With nearly two more months of run expected, the American already has a record run at the hatchery. Since the hatchery began operations in 1955, the top year was last year when 13,212 fish climbed its ladder. Egg take this year is 14,296,700 compared to 11,078,000 last year at this time. The record was set last year when 38,949,200 eggs were taken.

The good run is extending all the way up the Sacramento river. With the fish trap at Keswick Dam opened only one week, some 5000 fish already have been reported. Another 8000 fish have ascended Battle Creek near Anderson and have moved into Coleman Fisheries Station, the federal hatchery, where the Keswick-trapped fish are also being taken. Egg take at Coleman is nearing the 14,000,000 mark now. Last year the total take for the season was 53,000,000 eggs. The season ends in January.
